

Confirmation of PPWR Compliance of Packaging pursuant to Regulation (EU) 2025/40

(valid for all products supplied by GGT Gleitlager AG)

We hereby confirm that all packaging and packaging components used by us for the products supplied, including product packaging, secondary packaging, transport packaging, labels and all printed elements, comply with the currently applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR) and will be adapted to future requirements in accordance with the applicable transitional periods.

Specifications and information from the respective suppliers are available for the packaging materials used. The packaging is continuously reviewed with regard to its material composition, recyclability and other relevant requirements of the PPWR.

In particular, we confirm, insofar as applicable to the packaging used, compliance with the requirements set out in Chapter II, Article 5(4) of the aforementioned Regulation.

Furthermore, we confirm that the sum of the concentrations of the following heavy metals:

- Lead (Pb)
- Cadmium (Cd)
- Mercury (Hg)
- Hexavalent chromium (Cr VI)

in the packaging and packaging components used does not exceed the limit value of 100 mg/kg. The technical documentation as well as the required supporting evidence and declarations of conformity will be continuously supplemented and updated in accordance with the transitional provisions and entry into application requirements of the PPWR.

This confirmation is issued to the best of our knowledge and belief, based on the information and declarations provided to us by our suppliers as well as on the materials and printing systems used by us.

GGT Gleitlager AG
