

RoHS Compliance Declaration

Directive 2011/65/EU as amended by Commission Delegated Directive (EU) 2015/863

Status: 27 August 2026

GGT Gleitlager AG hereby confirms that products designated by us as **RoHS compliant** comply with the applicable substance restrictions of Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), as amended by Commission Delegated Directive (EU) 2015/863.

Based on the information, specifications and declarations available to us from our suppliers and manufacturers, the maximum concentration values of the restricted substances listed in Annex II to Directive 2011/65/EU are not exceeded in any homogeneous material of the products concerned, unless an applicable exemption under the RoHS Directive applies.

The following maximum concentration values apply by weight in homogeneous materials:

• Lead (Pb)	0.1%
• Mercury (Hg)	0.1%
• Cadmium (Cd)	0.01%
• Hexavalent chromium (Cr6+)	0.1%
• Polybrominated biphenyls (PBB)	0.1%
• Polybrominated diphenyl ethers (PBDE)	0.1%
• Bis(2-ethylhexyl) phthalate (DEHP)	0.1%
• Benzyl butyl phthalate (BBP)	0.1%
• Dibutyl phthalate (DBP)	0.1%
• Diisobutyl phthalate (DIBP)	0.1%

Commission Delegated Directive (EU) 2015/863 extended the list of restricted substances by DEHP, BBP, DBP and DIBP. The corresponding restrictions have generally applied since **22 July 2019**. For medical devices, including in vitro medical devices, and monitoring and control instruments, including industrial monitoring and control instruments, the restrictions have applied since **22 July 2021**.

This declaration applies exclusively to products identified or confirmed by GGT Gleitlager AG as RoHS compliant.

Our assessment is based on the information, specifications and declarations provided to us by our suppliers and manufacturers, as well as on our knowledge of the materials used in the relevant products. We do not routinely perform specific chemical analyses of every individual product or batch to verify compliance with the above substance limits.

Although we have no indication that the information provided by our suppliers and manufacturers is incorrect, unintended contamination resulting from circumstances outside our sphere of influence and control cannot be completely excluded.

This declaration is issued to the best of our knowledge and belief on the basis of the information available to us as of the date stated above.

Should you require any further information, please do not hesitate to contact us.
